WORK EXPERIENCE

Full Stack Developer

S3 Corp

2022 - current

- Developed and maintained a scalable microservices architecture that improved the overall speed and reliability of the web application.
- Developed and maintained RESTful APIs, enabling seamless communication between web applications and third-party services.
- Implemented secure authentication and authorization solutions, ensuring the protection of sensitive customer data and reducing the risk of security breaches.

- Developed and maintained user interfaces using React.js and utilized Redux for state management.
- Wrote unit and integration tests for a Golang application, improving overall code quality and reducing the number of bugs.
- Participated in code reviews of other engineers' work and ensured that all code adheres to the company's coding standards & guidelines.
- Created self-contained, reusable, and testable modules and components, resulting in reduced development time and increased team productivity.
- Utilized effective debugging tools to identify areas of performance issues, resulting in improvement of client-side scripts.
- Collaborated with product managers and designers to create a comprehensive user interface style guide, resulting in reduced development time for new features and components.

Frontend Developer

Ban Vien

2021 - 2022

- Developed complex user interfaces with HTML, CSS, JavaScript, React, and Angular and ensured a user-friendly experience.
- Reduced repeat work by establishing a coding style and its implementation, resulting in increased developer performance.
- Optimized the performance of a web application using Angular, resulting in improved page load speed.
- Proactively worked with back-end engineers on understanding data flow and integration elements to generate a secure web design.
- Utilized SEO best practices and techniques to optimize web applications for maximum speed and scalability and improve website performance.
- Researched and recommended new technologies and tools, leading to the adoption of React for a new web application.

EDUCATION

University of Economics Ho Chi Minh City

2016 - 2020

Finance Student.
