- NoSQL, MongoDB

WORK EXPERIENCE

Frontend Developer

S3 Corp

2022 - current

- Implemented interactive user-facing features using React, ensuring a smooth and efficient user experience with maximum scalability.
- Developed and tested interfaces, page layouts, and optimized graphics, images, and motion graphics while ensuring compliance with cross-browser compatibility and Web Standards guidelines.
- Increase website performance by implementing optimization techniques such as code minification and troubleshooting issues using browser developer tools.

- Created self-contained, reusable, and testable modules and components, resulting in reduced development time and increased team productivity.
- Stayed up-to-date with emerging technologies and frameworks, helping increase team efficiency and project success rates.
- Utilized effective debugging tools to indentify areas of performance issues, resulting in improvement of client-side scripts.
- Participated in code reviews of other engineers' work and ensured that all code adheres to the company's coding standards & guidelines.
- Collaborated with product managers and designers to create a comprehensive user interface style guide, resulting in reduced development time for new features and components.

Frontend Developer

Ban Vien

2021 - 2022

- Developed complex user interfaces with HTML, CSS, JavaScript, React, and Angular and ensured a user-friendly experience.
- Reduced repeat work by establishing a coding style and its implementation, resulting in increased developer performance.
- Proactively worked with back-end engineers on understanding data flow and integration elements to generate a secure web design.
- Implemented client-side scripting techniques and frameworks, as well as security testing protocols to protect against cyber attacks.
- Utilized SEO best practices and techniques to optimize web applications for maximum speed and scalability and improve website performance.
- Researched and recommended new technologies and tools, leading to the adoption of React for a new web application.
- Collaborated with a team of developers and designers to deploy rapid development and deployment processes using Git version control.

EDUCATION

University of Economics Ho Chi Minh City

2016 - 2020

Finance Student.
